

Secrets Of The Heart

“USING THE ARTS to awaken a child’s creative intelligence allows them to express their feelings and discover who they are. In recognizing their own feelings, they learn to respect the feelings of others...and that’s a very good way to make the world a better place.”

– Bunny Hull, Founder & Executive Director, Dream A World Education, Inc.

“The ‘Secrets of the Heart’ program is a shining beacon of light that provides students with an interactive, engaging, character-building experience that they love. The character lessons and lifelong skills are seamlessly woven into an arts-based experience, and is unlike anything I have encountered in my career. My kinder students are more aware of the impact they can have on the world...and in addition to all of this, the program supports early literacy skills with writing experiences, social studies with geography, and sign language.”

– Sarah Nitsos, Principal, Juan de Anza Elementary

What does “Secrets of the Heart” do?

Over a four to eight month period, our program combines creativity and compassion in a truly compelling way, promoting both artistic and social skills to children in low-income areas where programming is limited or non-existent. Parents participate in a family arts project as children carry forward lessons and experiences into their homes. School cultures are transformed.

What do children learn?

- Four art forms: Music, Dance, Theatre Arts, and Visual Arts
- Social-emotional skills
- Geography, World Culture and Language Arts

“Every kindergartener in the United States (and indeed the whole world!) should be so fortunate to be able to participate in ‘Secrets of the Heart.’”

– Tom Johnstone, Superintendent, Wiseburn District

Dream A World Education has a multicultural team of award-winning professional artists that have spent their lives in film, television, the recording industry, and performing live as soloists with jazz ensembles and symphonies. They include winners of a Grammy Award, a Dove Award, and NAACP Theatre, Dramalogue and Drama Critics awards.

“My kindergarten students have truly been enriched with the ‘Secrets of the Heart’ program! I especially noticed that my English Language Learners blossomed largely because of ‘Secrets of the Heart.’ This is what teaching is supposed to be like.”

– Maureen Martineau, Teacher, Kindergarten
